# PIPELINE PRESSURE ANALYSER RLBK 7 FAMILY

N7/PC1400 / N7/PC1450 / N7/PC1500 / N7/PC1550

## Logging pressure tests

Leak tests at pipelines, ducts, oil or fat separators require precise, reliable and robust measurement technology.

The RLBK7 is the latest member of the well proven data logger family PWBlogg that is now at your disposal.

The RLBK7 is designed for tough operation on site by its robust construction.

A built-in high-performance accumulator facilitates even permanent operation.

The provided selection of pressure transducers up to class 0,05 facilitates tests according to any well-established test standards such as W400/2, G469 or DIN EN 1610.

A wide variety of transducers and many equipment options complete the RLBK according to your desires.

The large illuminated chart display facilitates operation and provides the option of an immediate statement on the state of the object to be tested.

The dedicated software PWB-Soft provides the option of evaluating on PC.

A comprehensive range of accessories, such as the built-in thermal printer or the option of data storage on SD card, extends the facilities of the RLBK7.

An additional communication module facilitates reading and evaluating from remote areas.
